

Pure-Charge Energetic Spa®

Difference

Unit produces effervescent bubbles that stimulate the water with energy!

Hydrogen and oxygen are produced that ionizes the water. You will see tiny bubble coming from the array to the surface indicating that the unit is working!

Energizes the body and effects the cellular level

The treatment restores proper cell function increases your body's ability to start to process the toxins properly again. The liver and kidney start to remove more of the toxins reducing the load on the rest of the systems.

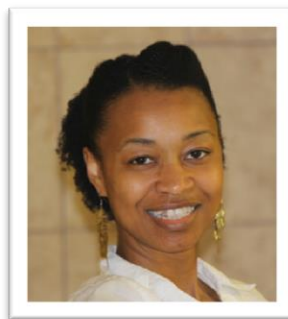

The water stays clean & clear throughout the entire session.

This process can simply be described as "sweating" in water. Realistically, the detox residue should look like sweat - clean, clear and a little salty.

No sludgy brown water! Water changing color does not necessarily indicate the health of an individual. Sludgy water is the breaking down of the array being used in the water.

Testimonials

I have done 5 Pure Charge treatments on myself..... I can say that this last treatment, I felt more going on in my body than any of the ones prior. I did feel things after the other 4 treatments, but not as powerful as this last. It has definitely helped with my carpal tunnel and with my colleague who has the same problem. - S.W.A.N. - Albuquerque, NM

Rechon Blanding has been a licensed esthetician in the state of Georgia since 2008 and owner of a private skin studio since 2009. She has received holistic certifications in health coaching through the Institute of Integrative Nutrition, Dr. Sears Wellness Institute and is currently pursuing a Master of Science at Maryland University of Integrative Health for Clinical Nutrition. She continues to learn and has received a professional clinically focused training certification through Face Reality Acne Clinic from Laura Cooksey. Rechon is happily married and a proud mother of a handsome and talented little boy and witty and energetic little girl. She desires to use her gifts and talents to honor the Lord and to bless others.

"You are unique and deserve one on one attention to address your skin care and nutritional needs, so that you can be happy, whole and healthy, from the inside out!"

Do you need more energy?

Pure-Charge Energetic Spa®

**Balance the Body
Bio-Cleanse & Detoxify
Improve Circulation
Relax & Rejuvenate
Gentle & Effective**

What is the Pure-Charge Energetic Spa?

Pure Charge Energetic Spa ® for ionic detox is the latest in Hydrotherapy bio-cleansing technologies developed in collaboration with a qualified team of U.S. based scientist and international researchers, as an experimental therapeutic aid for increased vitality and well-being.

Why is this treatment helpful?

Sometimes we never recover from ailments and injuries because our bodies just don't have enough energy to heal themselves. This is an unfortunate result of the society and world in which we live. Environmental stresses like **toxins, chemicals, heavy metals, mercury poisoning, radiation, pollution, synthetics, food processing & preservatives** are surrounding and enveloping us, yet no matter how many supplements we take or good foods we eat, it never seems to be enough. When we are low on energy the Pure-charge Energetic Spa ® offers you the possibility of a non-invasive, bio-cleansing, detoxifying recharge.

How does it work?

The Pure-Charge Energetic Spa ® unit can rebalance energy meridians through the bio-charge, bio cleansing process. The complex energy fields of the unit permeate the water, realigning a body's energy field. Many of the benefits of the unit can be attributed to the "re-balancing" of these energy lines allowing a body mass to function better. The action results in the initial purging of toxins and nucleic water products generated within the cells and surrounding membrane – **a pure energetic bio cleanse experience** – non-invasive and easily assimilated by the body.

The effect of stimulating the water to produce energy starts the moment the unit is turned on. The effervescing bubbles of hydrogen and oxygen permeate the water creating an ionized electrolytic solution. The water is where the energy is generated and where the person seeking treatment, gains energy. Whether it is the whole body or just a part of the body, the energy will flow from the charged water to the body. The energetic bio-charge flows even better when the water stays clean & clear. However, the general health of the individual effects how much energy from the stimulated water can be absorbed and the charge held. When even a little bit of energy is gained from the session, your body can begin to repair itself, so, the next time you will be able to receive even more

Who should get a treatment?

In general any healthy individual can benefit from having a session with the Pure-Charge Energetic Spa ®.

Benefits include:

- **Balance Meridians**
- **Bio-cleanse & De-Toxify**
- **Improve Circulation**
